Print specifications

Design notes

Use our supplied artwork templates

Check all design elements by printing the artwork, cutting to the template shape and wrapping onto the required cup/bowl size

Care should be taken ensuring logos and design elements are proportionally the same across cup sizes as required. Take care when placing logos on two sides of the cup that they appear exactly opposite each other

Ensure artwork aligns at the cup/bowl seam

Artwork to be supplied in vector format in solid colours

Artwork can only be printed in solid Coated Pantone colours

Metallic and fluorescent colours cannot be used

Standard clear cup printing is single colour only, additional colours can be printed for a fee of \$5.20 per colour per carton

Colour printing is limited to four colours

Up to six colours can be printed for orders above 200 cartons

Line work must be 0.5 point or greater

Text must be 7 point or larger

Convert all text to outlines and embed all images

Copyright

All images, graphics and fonts provided in artwork/or provided to BioPak to artwork, must comply with copyright and be the property of the client

Templates notes

Print safe area marked by the solid line. Artwork that extends beyond this line will not be seen on the cups. Keep all key info 3mm within the print area. To test on a cup, print templates to scale and cut along the dotted line and wrap around the required cup/bowl size

Example clear cup template – 360ml

Environmental benefits

Custom printing is an effective way to advertise your business and we encourage you to highlight the environmental benefits of using a BioCup by incorporating the trusted BioCup logo along with an explanation of the environmental benefits into your artwork.
